

Digital Payment ◦ Convenient ◦ Secure

PayPal By PayDollar

PayPal By PayDollar

PayPal By PayDollar is a simple, integrated and easy-to-setup payment service that enables merchants of any size to broaden online payment acceptance to global PayPal members and facilitates a seamless integration on payment interface and reporting controls with PayDollar platform.

Whether you are existing PayDollar merchants or not, or whether you choose to use PayDollar by PayPal alone or with other PayDollar credit and debit payment services, we provide comprehensive flexible plans to suit your business needs.

And during the promotion period, the service is offered FREE to existing PayDollar merchants.

About PayPal

Founded in 1998 and located in San Jose, California, PayPal, an eBay Company, enables any individual or business with an email address to securely, easily and quickly send and receive payments online. PayPal has quickly become a global leader in online payment solutions with 71 million accounts worldwide. Available in 45 countries around the world, buyers and sellers on eBay, online retailers, online businesses, as well as traditional offline businesses are transacting with PayPal.

Features

- ❖ Online payment acceptance from over 71 million global PayPal accounts.
- ❖ Accept payments in five currencies: U.S. Dollars, Canadian Dollars, Euros, Pounds Sterling, or Yen and from buyers in 45 countries.
